SELECTMEN'S REPORT

The State Assessors have completed the revaluation of all property in the Town. We trust that any previous inequities have been eliminated. We are happy to report that the cost to date of the revaluation is $25,746 instead of the anticipated $40,000.

Taxpayers are again reminded that they must complete and return their inventory forms by April 15th or lose the right of tax appeal for the current year.

A number of Town Departments, due to inflation, exceeded their budgets but the over-all Town Budget ended with a surplus of $21,265.

Certain changes in Town operating procedures have been implemented in order to insure a more efficient and economical management of Town affairs. A 5 man Safety Board has been created to advise the Selectmen with respect to the operation of the Fire and Police Departments.

Renovation work continued on the Town Hall with the addition of a new Fire Exit, the installation of a new water pump, tank and controls as well as a number of fire safety improvements.

We want to thank the Conservation Commission and the Deering Historical Society for the landscaping around the Town Hall and the erection of the Town Sign on the common.

POLICE DEPARTMENT REPORT

For the past few years the demand on the Department for its services has been on the increase each suceeding year. This year the Department dealt with approximately 60 percent more calls than in 1980. Contributing to these calls was an increase in juvenile cases, criminal investigations and complaints.

During the year of 1982, the members of the Department will be attending certification classes as required by newly enacted legislation. These classes are being conducted under the authority of the New Hampshire Police Standards and Training Council in an effort to maintain quality and efficiency among the part time departments.

Response to the request of vacant home notification was very good in 1981. For those that haven't notified the Department (464-3600), please take a couple of minutes to do so the next time your home is going to be vacant. If we have this information, we can take a closer look at your home during patrol. This helps to reduce the chances of vandalism and burglary.

WILLARD A. CAMPBELL
Chief of Police

CONSERVATION COMMISSION REPORT

The importance of wetlands in the biological and physical environments is better understood today than it was in 1954 when the U.S. Fish and Wildlife Service completed its first Wetland Inventory. As part of the new National Wetland Inventory currently being compiled, the Wildlife Service has issued a *Status Report* on the nation's wetlands, indicating how they have changed since the 1950's. Keeping in mind its mandate to oversee and protect this delicate resource, the Deering Conservation Committee along with other N.H. Conservation Commissions, considers the preparation of an accurate map and evaluation of wetlands its first priority. A soils-map of the town was the first step. Having completed this soils map in late summer, representatives of the Hillsborough County Soils Conservation Service met with the Planning Board and the C. C. to present the maps and instruct in their use. With the subsequent purchase of two sets of these maps, the Commission has begun the preparation of an accurate Wetlands Inventory for the Town of Deering.

Co-ordinating efforts, the Deering Historical Society and the C. C. embarked on a town beautification project. With the advice of the director of the America the Beautiful Fund, the horticultural consultant from the Hillsboro County Extension Service and other professionals, the following suggestions were implemented: Planters for the front of the Town Hall; evergreen trees planted in front of and adjacent to the Town Hall; 250 Dutch tulip bulbs planted around the monument and flag pole by the Cub Scouts (Project SOAR) under the direction of John Thyng. Spring plans include preparing a section of the Hotel Lot for a plant nursery and constructing an herb garden next to the library.

To encourge in our young people a sensitivity to ecological concerns, the Commission each year sponsors one student for the

SPNHF Conservation Camp. Elaine Greene, the participant in 1981, reported that she benefited from her experiences at camp both in school work and in leisure activities.

The Commission's annual Clean-Up-Day was held in May, and during July approximately 42 people gathered at the Deering Community Church for a Pot-Luck Supper and slide program on Acid Rain presented by Kris Peterson, Warner, director (at the time) of the N.H. Association of Conservation Commissions.

The Commission was very fortunate in securing John Thyng as a replacement for Betsy Neville-Bright who resigned.

DEERING VOLUNTEER FIRE DEPARTMENT

1981 has been a year of significant improvement and upgrading for the Fire Department.

The Pumper, purchased from the Henniker Fire Department has been placed in service at the Old County Road Station and is functioning very well as Deering's primary attack truck.

The pumper that was in service at the Old County Road Station is now at McAlister Station along with the government surplus tanker.

McAlister Station has been completed. The efforts and time of fire fighters and citizens throughout the Town was of significant value and greatly appreciated. The station will be partly solar heated. The materials have been purchased within the appropriated budget and will be installed when weather permits.

The Old Highway Shed next to the Town Hall has been insulated and heating equipment is presently being installed which will be adequate for year round use and will be completed later this spring. All work has been done with volunteer labor, at minimal cost to the Town.

We have begun to upgrade our communications during 1981, in addition to tax appropriation. Money was raised and donated

by the Fire Department. A grant of $1,000 was also received from the State.

The Deering Fire Dept. has applied to the Insurance Services Office of N.H. for a change of rating classification from 10-F to 9E. Acceptance has been assured. The changed rating will be a marked savings in Fire Insurance Premiums for all insurers, within 3 miles of any fire station.

1981 has been a year of extensive training by Fire Dept. members. Eleven members have completed extensive schooling, passed through practical and written tests, to become New Hampshire State Certified Fire Fighters. Deering presently has three certified municipal instructors and one State instructor. An additional nine Fire Fighters are attending school endeavoring to become certified Fire Fighters. We also have eight Fire Dept. members enrolled in Emergency Medical Technician School. After completion of the course we will be assisting the Hillsboro and Weare Rescue Squads as necessary.

We are well on our way towards our goal to build an effective small town Fire Department which everyone in Town can be proud of, participate in and depend upon in the most cost effective manner.

Respectfully,

KENNETH A. PIERCE, Chief
Deering Fire Department

PLANNING BOARD REPORT

1981 was not a busy year in terms of subdivisions. Due to a sluggish economy only 5 applications were presented and only three of those went to final approval during 1981. Three new lots were created.

The State Legislature passed new laws detailing how planning boards must handle subdivisions after September 1981. Our board had to rewrite some of our regulations and draft new forms and notification procedures to comply with the new law. The general thrust of the legislation is to insure that anyone affected by a subdivision, whether they be an abutter, a resident of the town, or a resident of the State of New Hampshire, will have the opportunity to be informed about a subdivision from the time the application is accepted until the completion of the subdivision process. Abutters of proposed subdivisions are urged to attend the meeting at which an application will be accepted in order to help the board determine the accuracy of the technical content of the plans regarding boundaries, etc. In addition, any concerned citizen is welcome at this

meeting so they will be better able to make informed comments at the public hearing.

We hope the Town Plan will be adopted in the first quarter of 1982. The plan will help the Planning Board be consistent when it views the merits of a subdivision and it will help potential subdividers to better understand the limitations of the Town's resources.

The Planning Board meets on the second Wednesday of each month (except August) at 7:30 P.M. in the Town Hall. Visitors are always welcome, in fact we need the opinions of our fellow residents so we will truly reflect the desires of our townspeople.

DOUGLAS W. CRAIGHEAD
Chairman

N.H. REGIONAL PLANNING COMMISSION

The Central New Hampshire Regional Planning Commission has been in existance since 1970 and during this period has continued its involvement in studies of both a regional as well as a local nature. The Commission acts as an advisory body to its member municipalities and as such is often invited to participate in local planning projects.

As a part of the ongoing technical assistance provided the Commission has written several memoranda to the planning board regarding changes in the state laws and the best manner in which to comply with those changes. The Commission has also provided information to the planning board regarding subdivision regulations, mobile home laws, driveway permits and other planning matters.

The Commission again sponsored a series of legal seminars for local officials which was well attended.

The Commission hopes to be able to continue to serve the needs of its member municipalities in the future and appreciates the past support of its activities by the Town of Deering.

Respectfully Submitted,
THOMAS G. ALLEN

HEALTH OFFICER'S REPORT

Once again the Health Officer can report there were no serious problems to be dealt with by the Health Officer or the Board of Health this past year.

Minor problems were resolved quickly and easily either on location or by phone.

A substantial amount of rain and an abundance of snow this winter should swell the Town's water bodies in the spring and raise the water table.

Once again we wish to remind those subdividing land and/or planning to build a home, that approval for a septic system must be granted in advance by the New Hampshire Water Supply and Poliution Control Commission.

May 1982 be healthy and prosperous for all.

Respectfully submitted,
Dr. JAMES M. CAREW
Health Officer
